

# Partnership Proposal

Recovery and Rehabilitation Centre MTÜ UUSTEE

**Dear Colleagues,**

The Recovery and Rehabilitation Centre **MTÜ UUSTEE** offers your business a reliable and mutually beneficial partnership. We are looking for employment opportunities for our clients who are completing the final stage of social adaptation and rehabilitation.

For our clients, integration into the workforce is a vital step towards returning to society. As a result, they are highly motivated to work conscientiously, carefully, and with discipline.

## **What We Offer**

We are ready to promptly provide workers for a wide range of tasks that do not require specialist qualifications:

- **Seasonal work:** snow removal, de-icing, leaf collection and disposal, preparing grounds for winter/spring.
- **Grounds maintenance and cleaning:** keeping order around offices, warehouses, production facilities, or residential complexes.
- **General and auxiliary labour:** warehouse assistance, loading and unloading, help with relocations, dismantling, or minor repairs.
- **Landscaping and green work:** lawn mowing, weeding, planting, and care of lawns and flowerbeds.

## **Why This Benefits Your Company**

- **Cost savings:** No need to spend time or budget on finding, onboarding, and training temporary staff for niche or seasonal tasks.
- **Flexibility:** We can provide workers for one-off projects (e.g. a clean-up day or unloading a truck) as well as on a regular basis.
- **Oversight and discipline:** MTÜ UUSTEE supervisors fully coordinate the process, monitor attendance at sites, and ensure quality of work.
- **Corporate social responsibility:** By partnering with us, your company makes a genuine contribution to civil society and gives people a second chance. This significantly strengthens your brand image.

## **How to Get Started**

We are open to discussing any scope of work and can offer flexible, legally transparent terms of cooperation (on a contractual basis).

If your company has a need for general labour or seasonal work, let's discuss the details!

## **Contact Us**

**Phone:** +372 5880 2970 Pavel Smirnov  
+372 5855 9893 Margarita Koivistoinen
